

Sergei Kolpakov

Principal Data Platform Architect | Data & Analytics Consultant | Microsoft Cloud & BI Leader
Delray Beach, FL | 215.813.2062 | skitp66@gmail.com

SUMMARY

Principal Data Platform Architect and consultant with 30+ years of experience designing, modernizing, and delivering enterprise data, analytics, and application platforms. Strong background across Microsoft Fabric, Azure Data Services, Databricks, SQL Server, Power BI, data warehousing, ETL/ELT, governance, and cloud modernization. Trusted advisor to business and technology leaders with a record of leading delivery teams, shaping architecture, enabling pre-sales, and translating complex requirements into scalable, measurable solutions.

CORE SKILLS

- **Cloud Data Platforms:** Microsoft Fabric, Azure Data Factory, Azure Data Lake, Azure SQL Database, Synapse, Databricks, Delta Lake, AWS
- **Data Engineering & BI:** SQL Server, SSIS, SSAS, SSRS, Power BI, Tableau, SAP Business Objects, SAP Data Services, ETL/ELT, data modeling, semantic models
- **Architecture & Delivery:** Enterprise data architecture, Lakehouse design, medallion architecture, data governance, API integration, DevOps, solution estimation, technical leadership
- **Development:** Python, PowerShell, SQL, .NET, C#, REST APIs, Angular, TypeScript, Docker

PROFESSIONAL EXPERIENCE

Principal Data Platform Architect / Consultant

Hitachi Solutions | 2018 – Present

- Serve as a senior consultant and architect for enterprise data platform, analytics, and cloud modernization engagements across healthcare, retail, manufacturing, real estate asset management, and banking clients.
- Design and implement scalable Microsoft data platforms using Fabric, Azure Data Services, Databricks, SQL Server, Delta Lake, Power BI, metadata-driven orchestration, and medallion-style architectures.
- Lead architecture discovery, solution design, estimation, technical delivery, and stakeholder communication for complex data engineering and business intelligence initiatives.
- Automate platform operations and delivery processes using PowerShell, Python, APIs, and reusable patterns to improve consistency, reduce manual effort, and accelerate time to delivery.
- Mentor delivery teams, lead knowledge-sharing sessions, and contribute reusable technical assets, documentation standards, and best practices for data engineering and analytics projects.

Independent Consultant | 2017 – 2018

- Designed and developed Microsoft Azure and on-premises solutions using .NET Core, SQL Database, SSAS, Power BI, and related Microsoft technologies.
- Built a direct crypto-to-crypto exchange platform using blockchain concepts and Azure-based services.

WinWire Technologies | Senior Principal Consultant / Technical Solutions Professional | 2016 – 2017

Earlier Leadership Experience | 1995 – 2016

- **Dorman Products:** Application Development Lead / Senior Data Warehouse Architect responsible for data standardization, information management, customer POS, pricing, and product data validation solutions.
- **D2i Healthcare:** Director of Applications Development & Delivery for SaaS healthcare analytics solutions, data warehouse development, ETL modernization, and SAP Business Objects migration.
- **Anexinet:** Senior Consultant / Solutions Architect delivering custom software, e-commerce integrations, RESTful APIs, and investment data warehouse solutions.
- **Cardone Industries:** Progressed from Programmer / Analyst to Director of Global Application Development, leading enterprise application strategy, data warehouse, e-commerce, transportation, supplier, and customer portal solutions for a global automotive remanufacturing leader.
- **Info Source:** Supported AS/400 server management and professional training programs.

EDUCATION & PROFESSIONAL DEVELOPMENT

Bachelor's Degree in Electrical Engineering, Industrial Institute Zaporozhye, Ukraine

Professional development: ETL Architecture in Depth, Kimball University; Machine Learning, Stanford University MOOC; Model Thinking, University of Michigan MOOC; Data Analysis, Johns Hopkins University MOOC
